**(FLAME RETARDING PAINT)**

**Description:** It is an oil based, non-flaming (dry), semi gloss paint which has been specifically formulated to provide a decorative coating or dry film which, although degraded by heat, will not spontaneously burst into flames in the event of exposure to fire. The paint is not intended to prevent the burning of wood or other combustible substrates, but will retard combustion to a limited extent.

**Conformance:** It conforms to Federal Specifications DOD-E-24607
